REQUIREMENTS**

a. Requirements (forms included in Appendix A)

The Bidder shall take affirmative steps to afford opportunities for MBE and WBE firms on the project and the Bidder shall make its best efforts to meet the MBE/WBE participation goals established for this project. The specific affirmative steps to be taken by Bidder are described in subparagraphs b and d below.

The Bidder shall designate, in writing, an executive of its company who will have overall responsibility for implementing the Bidder's MBE/WBE Utilization Plan. The successful Bidder shall be responsible for maintaining records showing subcontractor awards to MBE and WBE firms and all specific efforts to award subcontracts to such firms even if not successful. A copy of the monthly report form is included in these Requirements. This report form is to be completed by the successful Bidder and submitted to the County with each monthly progress payment application.

Bidders that are either MBEs or WBEs will be allowed to include their own participation towards meeting MBE/WBE participation goals established for this project. In the event a Bidder is a MBE, such Bidder shall remain subject to the goal of subcontracting at least three percent (3%) of the total cost of services to a WBE. In the event a Bidder is a WBE, such Bidder shall remain subject to the goal of subcontracting at least twelve percent (12%) of the total cost of services to a MBE. In the event a Bidder is both a MBE and WBE, the Bidder shall choose one of the two designations and shall remain subject to the subcontracting best efforts requirement for the designation not chosen.

M/WBE firms must be certified by the New York State office of Minority and Women's Business Development or the Monroe County M/WBE Certification Program (locally funded contracts only). The County reserves the right to require specific certification program(s) for its projects.

The successful Bidder shall also be required to submit payment records, which demonstrate payment by the Bidder to all subcontractors, including the MBE and WBE firms utilized on the project. Such submissions shall include affidavits certifying payments to subcontractors for work previously paid for by the County.

b. Bidder's Detailed M/WBE Utilization Plan

An M/WBE utilization plan shall be submitted with each Bid. The utilization plan must include a detailed MBE/WBE Utilization Plan form and a signed Letter of Intent from each of the MBE/WBE firms identified in the Plan. The Plan must identify the MBE and WBE firms to be utilized by the Bidder. If specific spend information is not available, complete details must be provided on the actual work M/WBEs will complete on the project, together with an explanation as to why spending data is not available shall be provided. If a firm is unable to show obtainment of program goals when submitting the utilization plan, Bidder must submit a Request for M/WBE Utilization Waiver with the initial bid. An approved Utilization Plan or granted utilization waiver will be required prior to contract issue. If the Utilization Plan is reviewed and determined to be insufficient and/or a utilization waiver is not granted, the bid may be disqualified as non-responsive.

The County's Director of Diversity, Equity, and Inclusion (DEI) shall be responsible for approving Bidder's MBE/WBE Utilization Plan; any utilization waiver applications; and/or reviewing each subcontractor's MBE or WBE certifications.

The successful Bidder will be obligated, throughout the term of the Contract, to furnish to the County's M/WBE Program Manager copies of all subcontracts with M/WBE firms for Project work. Failure to provide the County with a copy of such subcontracts prior to commencement of the subcontracted work shall constitute a breach of Bidder's obligations and the County shall have the right, at its discretion, to order the work suspended until Bidder has complied with this provision. Any costs associated with or resulting from a suspension of work due to Bidder's failure to comply with this provision shall be Bidder's sole responsibility.

Any amendments to the Utilization Plan submitted by Bidder must be approved by the County's M/WBE Program Manager, including, without limitation, changes in the work to be subcontracted to MBE/WBE firms; changes in the use of MBE/WBE firms; and/or substitutions of MBE/WBE firms. Updated utilization plans shall be submitted for change orders over \$20,000.

c. Disqualification of Proposals

Without limiting other grounds for the disqualification of bids on the basis of nonresponsiveness and/or nonresponsibility, the County may disqualify a bid as being nonresponsive and/or nonresponsible for failure to provide a timely MBE/WBE Utilization Plan, obtain a waiver, and/or remedy noted deficiencies in the Bidder's MBE/WBE Utilization Plan.

d. **Best Effort**

Where it appears that a Bidder, after making its best efforts, cannot comply with M/WBE participation requirements, a Bidder may submit a written application with its bid requesting a partial or total waiver of such requirements, setting forth the reasons for the Bidder's inability to meet any or all of the participation requirements and an explanation of the efforts undertaken by the Bidder to obtain the required participation of certified businesses. The County's Director of DEI will evaluate utilization waiver applications to determine if the Bidder's efforts are sufficient to grant the waiver. Efforts to obtain M/WBE participation that are merely pro forma are not best efforts, nor are efforts that, even if they are sincerely motivated, given all relevant circumstances, could not reasonably be expected to produce a level of M/WBE participation sufficient to meet the goal. In order to evaluate a Bidder's best efforts, the County's Director of DEI will consider the quality, quantity, and intensity of the different kinds of efforts that the Bidder has made. Below is a list of the types of actions which the County's Director of DEI will consider as part of the Bidder's best efforts to obtain M/WBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exhaustive or exclusive. Other factors or types of efforts may be relevant in appropriate cases:

1. The Bidder shall conduct market research to identify small business contractors and suppliers and solicit, through all reasonable and available means, the interest of all certified M/WBEs that have the capability to perform the work of the contract. This may include attendance at pre-bid and business matchmaking meetings and events; advertising and/or written notices; posting of notices of sources sought and/or requests for proposals, written notices or emails to all certified M/WBEs listed in the appropriate directory of certified firms that specialize in the areas of work desired and which are located in the area or surrounding area.
2. The Bidder shall solicit this interest as early in the bidding process as practicable, to allow the M/WBEs to respond to the solicitation and submit a timely offer. The Bidder shall determine with certainty if the M/WBEs are interested by taking appropriate steps, including following up the initial solicitation with at least one additional solicitation via a different media. **The Bidder shall solicit quotes from qualified firms listed in the NYS M/WBE or Monroe County directory, regardless if they have their own database of M/WBE firms.** The Bidder shall keep records of efforts to solicit and negotiate with M/WBEs as evidence of best efforts. These records must include the firms contacted, method of contact, evidence of actions, and contact information of individuals that were sent outreach efforts. M/WBE firms should be given a minimum of 10 business days to submit quotes.
3. Selecting portions of the work to be performed by M/WBEs in order to increase the likelihood that the M/WBE goal will be achieved. This includes, where appropriate, either breaking down operations or combining like or related operations into logistically and economically feasible units to facilitate M/WBE participation, **even when the Bidder might prefer to perform these work items with its own forces.** This may include, where possible, establishing flexible time frames for performance and delivery schedules in a manner that encourages and facilitates M/WBE participation

**MINORITY AND  
WOMEN'S BUSINESS  
ENTERPRISE  
REQUIREMENTS  
CONTINUED**

4. Providing interested M/WBEs with adequate information on where and how to obtain the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation with their timely offer.
5. Negotiating in good faith with interested M/WBEs. It is the Bidder's responsibility to make a portion of the work available to M/WBE subcontractors and material suppliers and to select those portions of the work or material needs consistent with the available M/WBE subcontractors and material suppliers, to facilitate M/WBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of M/WBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for M/WBEs to perform the work.
6. Additional Costs. The fact that there may be some additional costs involved in finding and using M/WBEs is not in itself sufficient reason for a Bidder's failure to meet the contract M/WBE goal, as long as such costs are reasonable. The ability or desire of a Bidder to perform the work of a contract with its own organization does not relieve the Bidder of the responsibility to make best efforts.
7. Replacement Firms. A Bidder's inability to find a replacement M/WBE at the original price is not sufficient to support a finding that best efforts have been made to replace the original M/WBE. The fact that the Bidder has the ability and/or desire to perform the contract work with its own forces does not relieve the Bidder of the obligation to make best efforts to find a replacement M/WBE, and it is not a sound basis for rejecting a prospective replacement M/WBE's reasonable quote.
8. Making efforts to assist interested M/WBEs in obtaining bonding, lines of credit or insurance as required by the Department or the Bidder.
9. Making efforts to assist interested M/WBEs in obtaining necessary equipment, supplies, materials, or related assistance.
10. The County's M/WBE Program Manager will provide assistance to potential bidders in connecting with M/WBEs.

e. Payment Deductions

The Bidder's failure to perform in accordance with an approved M/WBE Utilization Plan shall constitute a default by the Bidder of the obligations under the Contract. In the event of such a default by Bidder, the County shall be entitled to deduct payment to Bidder in the percentage amount of the Contract which equals Bidder's shortfall from the M/WBE participation goals for this project. Such deductions by the County may begin with the Bidder's initial payment application, and will carry-over to subsequent payment applications until the total amount of the deductions equals the amount of the MBE/WBE participation goal shortfall. In the event the Bidder thereafter performs in accordance with an approved M/WBE Utilization Plan, the County will reimburse any payment deductions made pursuant to this provision. In the event the Bidder continues to fail to perform in accordance with an approved M/WBE Utilization Plan, the County will retain any payment deductions made pursuant to this provision and may seek any other rights and remedies available to County under law or in equity.

f. Additional Requirements

1. M/WBE Supplier

M/WBE supplier participation shall be based on 50% of their contract amount. This participation shall be based on 100% of contract amount if said MBE/WBE installs the material they are supplying.

A supplier is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials or supplies required for the performance of the contract are bought, kept in stock, and regularly sold to the public in the usual course of business. It is a firm that engages in, as its principal business, and in its own name, the purchase and sale of the products in question. One who deals in bulk items such as steel, cement, gravel, stone and petroleum products need not keep such products in stock, if it owns or operates distribution equipment.

2. M/WBE Trucking

No material costs will be credited towards a project's M/WBE goals. M/WBE trucking participation credit will be granted for the utilization of M/WBE owned or leased equipment only.

3. M/WBE Labor Only Subcontracts

The M/WBE subcontractor shall submit documentation of the relationship between its work force and the Bidder's work force. The Bidder and the M/WBE subcontractors shall submit copies of the certified payrolls to the County (or designee).

4. M/WBE Subcontract to Non-M/WBE

In order to allow management flexibility for M/WBE firms, the M/WBE firms are permitted to subcontract up to 49% of any single M/WBE subcontract to non-M/WBEs and still have the whole M/WBE subcontract count towards fulfillment of the M/WBE utilization requirement. If the M/WBE firm contracts out more than 49% of any single M/WBE subcontract to non-M/WBE firms, the Subcontract between the M/WBE and the prime Bidder shall no longer be considered a bona fide M/WBE subcontract.

WOMEN'S BUSINESS  
ENTERPRISE  
REQUIREMENTS

g. Conditions of Participation

M/WBE participation will be counted toward meeting the M/WBE contract goals, subject to all of the following conditions:

1. Commercially Useful Function

The Bidder is responsible for ensuring that M/WBEs working on the contract perform a commercially useful function. A M/WBE is considered to perform a commercially useful function when it is responsible for the execution of a distinct element of work on a contract and carries out his/her responsibilities by actually performing, managing, and supervising the work involved in accordance with normal industry practice (except where such practices are inconsistent with the M/WBE regulations). Arrangements that erode the ownership, control, or independence of the M/WBE or in any other way does not meet the commercially useful function requirement, the Bidder shall receive no credit toward the goal.

2. Work Force

The M/WBE firm must employ a work force (including administrative and clerical) separate and apart from that employed by the Bidder, other subcontractors on the project, or their affiliates. This does not preclude the employment by the M/WBE of an individual that has been previously employed by another firm involved in the Contract, provided that the individual was independently recruited by the M/WBE in accordance with customary industry practice. The routine transfer of work crews from another employer to the M/WBE shall not be allowed.

3. Supervision

All work performed by the M/WBE must be controlled and supervised by the M/WBE without duplication of supervisory personnel from the Bidder or other subcontractors. This does not preclude routine communication between the supervisory personnel of the M/WBE and other supervisors necessary to coordinate the work of the contract.

4. Equipment

M/WBE subcontractors may supplement their equipment by renting or leasing additional equipment in accordance with customary industry practice. However, no more than 50% of the equipment required to perform the work of the subcontractor may be obtained from the Bidder, other subcontractors on the project, or their affiliates. If the M/WBE obtains equipment from any of those sources, the County of Monroe shall receive from the M/WBE documentation demonstrating that similar equipment and terms could not be obtained at a lower cost from other customary sources of equipment. The required documentation shall include, but not be limited to, copies of the rental or leasing agreements, and the names, addresses, and terms quoted by other sources of equipment.

Lessor - The Bidder(s) awarded this contract  
Lessee - Monroe County

**2.01 RENTAL RATES:**

It is understood and agreed upon that the rental rates specified on the unit price sheet are based upon defined hours of the lessee's right to possession of and maximum use of the equipment rented. Hours are defined on the following rental bases as follows:

- A. Daily Basis - Any use up to a total of eight (8) hours. Additional hours will be pro-rated according to eight (8) hour days.
- B. 5-Day Weekly Basis - Any use up to a total of five (5) days, eight (8) hours per day. Additional hours will be pro-rated according to five (5) day weeks.
- C. 20-Day Monthly Basis - Any use up to a total of twenty (20) days, eight (8) hours per day. Additional hours will be pro-rated according to twenty (20) days/month.

**2.02 RENTAL PERIOD:**

The rental period shall begin on the date and time of acceptance of the equipment by the lessee and shall end at the time and date of the lessee's verbal or electronic mail notification to the lessor that the equipment is no longer needed. If the lessor chooses to delay picking up the equipment, thereby leaving it on the lessee's property an additional day or more beyond the daily, weekly or monthly rental period, he/she may do so as long as this is mutually agreeable between the two parties. However, there will be no additional charge for the equipment to the lessee once the lessor is notified that the equipment is no longer needed.

Specifications

**3.00 EQUIPMENT:**

**3.01 CARE:**

The lessor shall use reasonable care to see that the equipment is in proper working condition before shipment to the lessee. It is not to be actually operated or tested unless such operation or test is deemed necessary by the lessor or unless the lessee shall request such operation or test results in writing. In the event of notice to the lessor by the lessee that the equipment is not in good, safe and serviceable condition and fit for use upon its arrival, the lessor shall have the obligation to put the equipment in good, safe and serviceable condition within a reasonable length of time. If this cannot be done by the time use of the equipment is required by the lessee, then the lessor will provide a different but similar piece of equipment to the lessee for its use.

**3.02 MAINTENANCE:**

The lessor agrees to maintain the specified equipment in good operating condition throughout the term of the rental agreement and shall perform such maintenance and repair in accordance with the manufacturer's instruction. The lessor further agrees it will perform such maintenance including fuel (if the equipment is operator equipped), lubrication and the installation of replacement parts and components, as the lessee may deem necessary for the preservation of such equipment. The lessee will not be responsible for any rental charges while the equipment is down and not operating due to maintenance by the lessor.

**3.03 RESPONSIBILITY:**

The lessor must accept full and complete responsibility for providing equipment that is in excellent operating condition, capable of performing and adequate to perform the tasks identified by the lessee. The lessor also must accept full responsibility for providing licensed, qualified, experienced operators (where indicated on the unit price sheet) who can operate the equipment. The lessee will not accept responsibility for any equipment or other damage or failure caused by the lessor's failure to provide equipment or operators capable of performing the tasks specified. Although the lessee will provide general supervision, the lessee will not be responsible or liable for operator negligence. In addition, the lessor agrees to defend, hold harmless and indemnify the lessee from and against any or all claims arising out of the acts or negligence of the lessor, its agents or employees.

**3.04 MOBILIZATION:**

**This delivery and set up fee will be allowed for crawler/track type equipment.**

Each bidder must indicate mobilization fees on the unit price sheet, where appropriate. Any mobilization fee(s) deemed by Monroe County to be excessive could be cause for rejection of the bid. The fee represents round trip delivery service from the lessor's place of business to the Monroe County work site.

Equipment (i.e. rubber tire loaders), normally transported by lowboy trailer, will require rental of the lowboy trailer.

**3.05 DELIVERY:**

All equipment must be delivered to the Monroe County work site (as specified by the ordering agency) within four (4) hours of the verbal request of the lessee. The lessor may charge the lessee only the mobilization fee associated with that particular piece of equipment (if applicable). No other delivery/travel charges will be allowed. Rental requests must be honored 24 hours/day, 7 days/week.

Specifications

**3.06 OPERATORS:**

Prices bid are for equipment without operator unless otherwise noted on the unit price sheet. Should the lessee require an operator, the lessor must provide the operator within the delivery time frame specified and must pay applicable New York State Prevailing Wage rates, wages and supplemental benefits at a minimum.

**3.07 OPERATOR HOURLY RATE:**

The lessor will be paid for the number of hours actually expended at the job site times the labor rate per hour as bid. Overtime rate will be defined as time and one half of the hourly rate after eight (8) hours per day and on Saturdays (1.5 x labor rate per hour). Double time will be defined as double the hourly rate for Sundays and holidays (2 x labor rate per hour).

**3.08 FUEL:**

Delivery and return of all equipment shall be with a full tank of fuel. The lessor will assume responsibility for fueling operator-equipped equipment during the rental period. Delivery of fuel by the lessor to the work site may be required and must be at no additional charge to Monroe County. The price of the fuel will be determined by the current market rate and will be added to the invoice as a separate item billed in gallons. The Bidder is required to submit fuel price updates to Monroe County. Fuel prices can be adjusted on a monthly basis only. The lessee will be responsible for fueling equipment provided without an operator.
